

### Daniella Staddon – Debuts for Brazil

At last, Bexley has its first locally produced full International female player, it ticks the final box. Daniella Staddon was first selected to play for Brazil under 17s in 2020, by virtue of dual nationality, but covid caused the cancellation of the competition, since then there have been many false starts for her debut but eventually the long-awaited day came when she was upgraded to the full adult team.

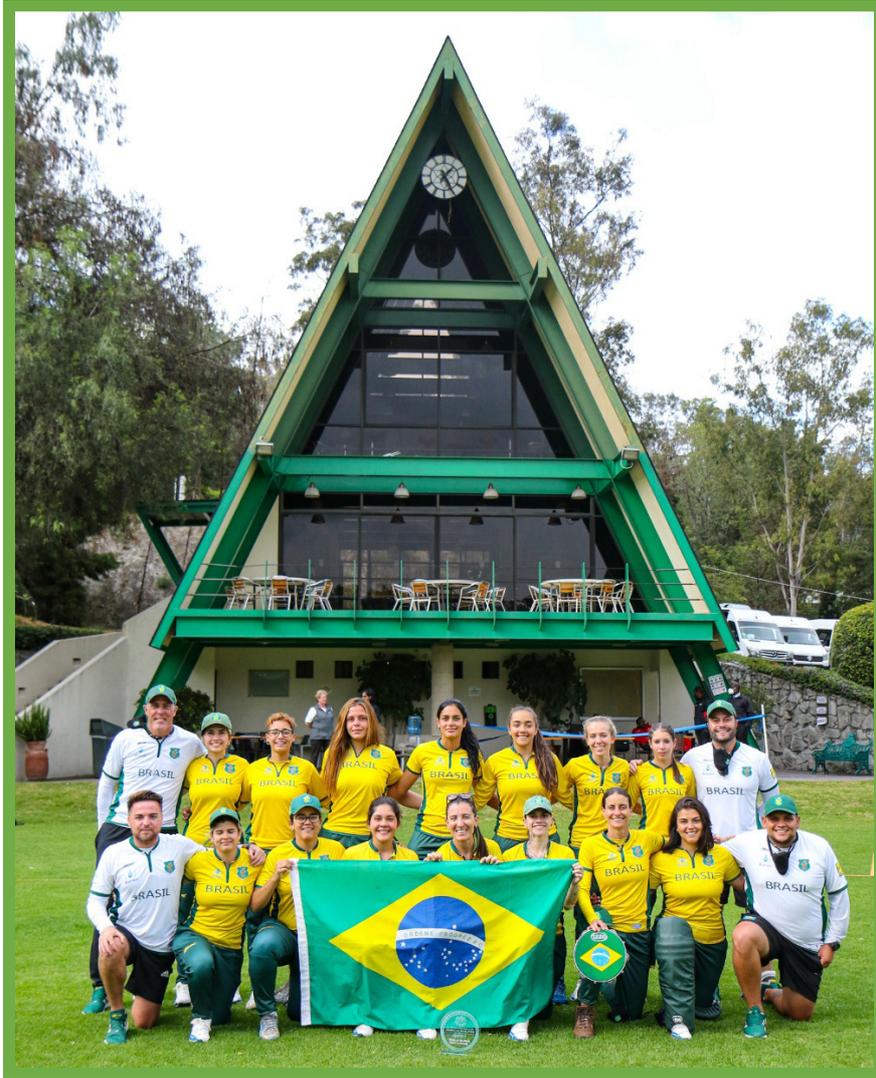

Daniella arrived in Brazil during late Sept 2021 to attend the team's preparations and was presented with her Brazil International Cap. Seen here with Matt Featherstone, the Brazil Cricket Development Director (and ex-Kent County Cricket Club).

On 18<sup>th</sup> October 2021 Daniella made her debut for the Brazil adult ladies' team against USA in Mexico City while competing in the ICC Women's T20 World Cup Americas Qualifying competition.

Originally this was to be hosted in The USA but travel restriction issues saw Mexico step in on short notice and the competition was hosted by the Mexico Cricket Association with all matches being played at the Reforma Athletic Club, the oldest sports club in the country (formed in 1894) but cricket has been played in Mexico since at least 1827.

Mexico City is a demanding place to play, high altitude (2300 meters above sea level) which brings its own challenges to players, the rarity of the air can cause breathing and exhaustion problems. There is discussion on whether this is the highest ground above sea level in the world where international cricket has ever been played.

The FIRST TIME 5 wickets have been taken in successive deliveries in international cricket (men or women).
